

STATE OF CALIFORNIA

✓ PROP 1

SUPPORT: Allows the state to issue bonds to fund programs to address critical veterans and affordable housing needs.

✓ PROP 2

SUPPORT: Allows the state to save more in its “rainy day fund” in strong economic years to protect services during difficult budget years.

✓ PROP 3

SUPPORT: Permanently extends an existing high-income earner tax to fund K-12 education, community colleges, healthcare, and other essential services.

✓ PROP 4

SUPPORT: Permits the state and local governments to create public financing for political campaigns to counter campaign spending by special interests and wealthy donors.

✓ PROP 5

SUPPORT: Changes California’s recall process to reduce voter confusion and ensure a majority of voters decide the outcome of state elections.

✓ PROP 37

SUPPORT: Creates a homeownership loan program to support middle-class Californians with their down payment when buying new homes. Helps address our housing crisis.

✗ PROP 39

OPPOSE: Makes it harder to vote by requiring ID at the polls or writing parts of personal ID numbers on the back of mail ballots. Lowers voter turnout, creates voting barriers and privacy concerns.

✓ PROP 40

SUPPORT: Establishes a one-time tax on billionaires’ wealth to fund critical healthcare programs, including Medi-Cal, which were cut by the federal government. Offers the only solution to save healthcare and lives right now.

✗ PROP 41

OPPOSE: Requires new audits for tax proposals before they can go to the ballot. Funded by billionaires to avoid paying taxes and hinders our state’s future ability to raise revenue.

✗ PROP 42

OPPOSE: Prohibits any new taxes on personal property and investment assets. Funded by billionaires who do not want to pay their fair share and makes it harder to create a future wealth tax.

✗ PROP 43

OPPOSE: Allows a minority of voters to determine the outcome of local special tax initiatives placed on the ballot. Rejects the rule that a majority of voters determines the outcome.

✗ PROP 44

OPPOSE: Requires community health clinics to spend 90% of revenue on patient care only. Cuts clinics’ work on outreach and education, cultural and language services and would force many clinics to close.

✗ PROP 45

OPPOSE: Weakens environmental standards by allowing certain projects to bypass existing review requirements, including narrowing the window for public comment.
